

Artist Blacksmith Sculpture: The Art of Natural Metalwork

David Freedman has taken the art of blacksmithing in a new direction. His metal work ranges from giant insects in the woods of Scotland to seaweed inspired gates on the Cornish coast, ethereal deer in the ancient forests of England and organic seats in some of the UKs finest historic gardens. Davids unique sculptural metalwork is shown here at its best, set within the landscape that inspires its creation. David has been forging creative metal sculptures, delicate copper water features, decorative wrought ironwork gates and much more for over 20 years from his backyard workshop in the UK. Rather than a beginners guide or a blacksmithing manual, this book is more than a catalogue of Davids work, with stunning photographs, design notes and sketches as well as perspectives from blacksmiths around the world and a look into the forge, past and present, giving a unique window into the ancient yet ever evolving blacksmiths craft. This collection is also a source of inspiration for those interested in garden design and garden art as well as public sculpture. David is also a writer of articles and fiction. His childrens book Stunt Crow is available on Amazon and Jewel of The Brook is forthcoming.
