The Road Leads On

Knut Hamsun

Translated From The Norwegian By Eugene Gay-Tifft

They had met during their younger days, he and the widow of Theodore paa Bua. The original fusion of their passion had taken place during a golden opportunity out in the berry field--she had given him a certain look upon leaving the house and he had gone a round-about way and met her. Violence--violence and violation, but so welcome, so unimpeachable. Ay, and their affair had continued without interruption throughout two whole summers and one winter. When they parted, they had had good cause to remember each other and when they met again they had neither of them changed; they were the same mad lovers they had been during their earliest youth.
