

All Shakespeares Tales (Classic Reprint)

Excerpt from All Shakespeares Tales
The following Tales are meant to be submitted to the young reader as an introduction to the study of Shakespeare, for which purpose his words are used whenever it seemed possible to bring them in; and in whatever has been added to give them the regular form of a connected story, diligent care has been taken to select such words as might least interrupt the effect of the beautiful English tongue in which he wrote: therefore, words introduced into our language since his time have been as far as possible avoided. In those tales which have been taken from the Tragedies, the young readers will perceive, when they come to see the source from which these stories are derived, that Shakespeares own words, with little alteration, recur very frequently in the narrative as well as in the dialogue; but in those made from the Comedies the writers found themselves scarcely ever able to turn his words into the narrative form: therefore it is feared that, in them, dialogue has been made use of too frequently for young people not accustomed to the dramatic form of writing. But this fault, if it be a fault, has been caused by an earnest wish to give as much of Shakespeares own words as possible: and if the He said and She said the question and the reply, should sometimes seem tedious to their young ears, they must pardon it, because it was the only way in which could be given to them a few hints and little foretastes of the great pleasure which awaits them in their elder years, when they come to the rich treasures from which these small and valueless coins are extracted; pretending to no other merit than as faint and imperfect stamps of Shakespeares matchless image.
