

# The Adventurers

Harold Robbins, a novelist known for steamy passion in his works, stirs up passion of a different kind in *The Adventurers*, a story of revolution and danger in the sultry jungles of South America. As a young boy, Diogenes Alejandro Xenos, witnesses the murder of his mother and sister by a band of marauders. As Dax grows to adulthood, he channels his fear and hatred into a desire for revolution, swearing revenge on those in power as he upsets the status quo. His actions make him an outlaw, living on the fringes of society in a land turned upside down with corruption. He is wanted by men and women alike but for very different reasons. This epic tale of escape from the horrors of a third-world regime is one of Harold Robbins most ambitious novels ever, combining his trademark sensuality with political intrigue and a globe-spanning variety of exotic locales. Lose yourself in *The Adventurers*.
